

## **CITY OF MENIFEE**

---

SUBJECT: Resolution of Intention for Annexation No. 11, Golden Meadows, into Community Facility District 2017-1, Maintenance Services

MEETING DATE: June 19, 2024

TO: Mayor and City Council

PREPARED BY: Kristen Jensen, Financial Analyst

REVIEWED BY: Nick Fidler, Public Works Director

APPROVED BY: Armando G. Villa, City Manager

---

---

### **RECOMMENDED ACTION**

1. Accept the Petition of Golden Meadowland, LLC and Golden Hill Country, LLC, Tract Map No. 31194, located south of Garbani Road and west of Evans Road, to annex into Community Facilities District (CFD) No. 2017-1 (Maintenance Services) as Annexation No. 11; and
2. Adopt a resolution of intention to add Annexation No. 11 into CFD No. 2017-1, to authorize the levy of special tax therein to finance certain maintenance services, and to set a public hearing for August 7, 2024.

### **DISCUSSION**

On December 6, 2017, the City Council adopted Resolution No. 17-658, establishing CFD No. 2017-1 pursuant to the provisions of the Mello-Roos Community Facilities Act of 1982 ("Act"). CFD No. 2017-1 allows for the levy of special taxes on parcels of taxable property for the purpose of providing certain services which are necessary to meet increased demands placed by development upon the City.

Golden Meadowland, LLC and Golden Hill Country, LLC ("Owners") are the Owners of Golden Meadows, Tract Map No. 31194 ("TR 31194"), which consists of approximately 195.38 gross acres of vacant residential property. The property is located west of I-215 at the southeast corner of Garbani Road and Evans Road, as shown in the attached Project Location Map.

The Owner has requested that the City assist in annexing TR 31194 into CFD 2017-1 to cover the costs associated with the maintenance of public improvements. The area proposed for annexation would be designated "Annexation No. 11," and would include property within TR 31194, covering 552 detached single family residential units. Per the Owners' request, the City

would establish a rate and method of apportionment and authorize the levy of special taxes on the taxable property within Annexation No. 11 to pay for those services.

Annexation No. 11 would have a maximum annual tax of \$913 per unit and would be included in CFD No. 2017-1 as "Tax Zone 11." The maximum annual tax rate is proposed to escalate each year by the greater of the Consumer Price Index (CPI) or 2%. The attached CFD Maintenance Site Plan Exhibit illustrates which services would be maintained by the CFD.

The Owner has agreed to initiate and conduct the CFD annexation proceedings pursuant to the Act. To that end, the Owner has submitted a "Consent and Waiver" form on file in the City Clerk's Office which authorizes the City to (1) hold the election and declare election results (2) shorten election time requirements, (3) waive analysis and arguments, and (4) waive all notice requirements relating to the conduct of the election immediately following the public hearing.

The next step to annex TR 31194 into CFD 2017-1 is to publish a notification of the proposed annexation along with the Resolution of Intention and Boundary Maps of the proposed Annexation area. A public hearing on the matter would take place on August 7, 2024, and at that time, the Council would formally consider approval of Annexation No. 11.

### **STRATEGIC PLAN OBJECTIVE**

Safe and Vibrant Community

### **FISCAL IMPACT**

The individual property owners in the CFD would be responsible for annual payments of special taxes. It is estimated, upon full completion of the tract development, that there would be an annual collection of special tax revenues of approximately \$503,618 to be used to pay for maintenance costs.

On June 1 of each year, every taxable unit for which a building permit has been issued within the boundaries of the CFD, would be subject to the special tax for the ensuing fiscal year. If the anticipated costs of maintaining the facilities in any given fiscal year, prior to buildout of the project, exceeds the special tax revenues available from parcels for which building permits have been issued, the special tax may also be applied to property within recorded final subdivision maps, as well as other undeveloped property within the boundaries of the CFD.

All costs associated with annexation into the CFD have been borne by the Developer. By annexing into the CFD, the costs of maintaining improvements located within the development would be financed through special taxes levied on the parcels within CFD No. 2017-1 and not through the City's General Fund.
