#### **Storm Water Pollution Prevention Plan (SWPPP)**

A Stormwater Pollution Prevention Plan (SWPPP) will be required for this project since the project will likely disturb more than one acre of soil. The SWPPP is required under the State's General Construction Permit for Stormwater Discharges, Order No. 2009-009-DWQ (CGP) that is regulated by the State Water Resources Control Board. The City will be required to obtain coverage under the CGP by filing a Notice of Intent (NOI) online and obtaining a Waste Discharge Identification Number (WDID#) and NV5 can assist with that process.

NV5 will prepare a SWPPP for the project based on the current CGP. The SWPPP will be prepared by a Qualified SWPPP Developer and will follow the California Storm Water Quality Association (CASQA) template as a basis for preparing the SWPPP. The SWPPP text will include information on potential pollutants from the site as well as sampling and monitoring requirements during construction. The SWPPP will include Water Pollution Control Plans (WPCPs) that will document all Best Management Practices (BMPs) to be installed prior to the start of construction. BMPs will typically include fiber rolls, storm drain inlet protection, silt fencing, slope stabilization, etc. The WPCPs will depict only a snapshot of the required BMPs at the start of construction. It will be the Qualified SWPPP Practitioner's (QSP's) responsibility to update the WPCPs as construction progresses in order to maintain compliance. We will use the project grading plans as base maps for preparation of our WPCPs. Our fee includes time to respond to one round of comments from the City. NV5 will transmit all documents in pdf format to the City and can work with the City to upload the necessary documents to the SMARTS website.

#### **Exclusions**

The following are not included within our scope of work and fees: fees associated with submitting and renewing the NOI, annual reporting to the Regional Board, inspections and sampling required by the SWPPP's Monitoring Program, preparing the Notice of Termination and accompanying documentation, any changes made necessary by plan checks or changes in site conditions (SWPPP Amendments), and soil monitoring and/or reporting.

#### **Deliverables**

Deliverables include one hard copy of the SWPPP document, and all electronic files to be delivered in pdf format via email or ftp site to the City.

**Time and Materials Fee: \$6,000**
