

COMMUNITY DISCUSSION

Discussion of proposed changes to Chapter 5 of Title 5 of the Menifee Municipal Code related to the regulation of Massage Establishments.

The City is considering a Repeal and Replacement of its City Ordinance pertaining to massage establishments.

Due to the potential for unlawful activity that impacts surrounding neighborhoods and the potential for human trafficking to occur in massage establishments, the Menifee Police Department is proposing to enhance the current "Massage Ordinance" in place.

Through conducted research and investigations, the Police Department believes the recommended changes are fair to the massage profession as well as to the needs of the City. Since July 2020, the Menifee Police Department has investigated five massage businesses within the city and all five investigations resulted in prostitution arrests or evidence of prostitution occurring at the locations.

Some of the proposed changes will affect business hours, require all services to be listed publicly, regulate certain types of advertising, and clarify language regarding a massage therapist's attire.

The proposed changes would impact existing massage establishments and any new massage establishment in the future.
