ROOF
PLAN
A2.0

KEYED NOTES:
This section contains key notes for the roof plan. It includes:
A. General roof slope and drainage details.
B. Specific dimensions for various sections of the roof.
C. Material specifications for different parts of the roof system.
D. Construction details for valleys, hips, and ridges.
E. Special features like skylights, vents, and insulation layers.

GENERAL NOTES:
A. The roof plan is based on the building's footprint and includes all major components such as the main roof, valleys, hips, and ridges.
B. All dimensions are in feet and inches unless otherwise specified.
C. Materials used include asphalt shingles, metal valleys, and wood hips.
D. Construction details are provided for valleys, hips, and ridges.

GENERAL ROOFING NOTES:
A. The roof is designed to withstand a minimum wind load of 30 psf.
B. The roof is designed to accommodate a maximum snow load of 20 psf.
C. The roof is designed to accommodate a maximum rainfall intensity of 120 psf.
D. The roof is designed to accommodate a maximum temperature of 120 degrees F.
