

## **CITY OF MENIFEE**

---

SUBJECT: Feasibility of Paving Dirt Roads in the City  
MEETING DATE: March 5, 2025  
TO: Mayor and City Council  
PREPARED BY: Kristen Jensen, Financial Analyst  
REVIEWED BY: Nick Fidler, Public Works Director  
APPROVED BY: Armando G. Villa, City Manager

---

---

### **RECOMMENDED ACTION**

1. Receive a presentation from staff on the feasibility of paving dirt roads throughout the City; and
2. Discuss and provide direction to staff for future actions, if any.

### **DISCUSSION**

On June 22, 2024, the City Council requested a future agenda item be planned for staff to provide information on the feasibility of paving existing dirt roads within the City. Due to the technical evaluation and financial resources required to do a comprehensive city-wide feasibility study, staff has prepared an initial presentation to provide the City Council with a foundational understanding of the following:

- Current dirt road inventory.
- Regulatory requirements associated with paving projects.
- Potential costs for paving.

Following a presentation on the topics listed above, City Council discussion and direction would determine next actions, if any.

### **STRATEGIC PLAN OBJECTIVE**

Connectivity and Mobility

**FISCAL IMPACT**

There is no fiscal impact associated with the recommended action. The cost impact associated with this item would be determined based upon the direction provided by Council.

**ATTACHMENTS**

None
