SUBJECT: Intention to set a Public Hearing to Establish Fiscal Year 2024/2025 County Service Area Charges Within the City

MEETING DATE: May 15, 2024

TO: Mayor and City Council

PREPARED BY: Lauri Lockwood, Financial Analyst

### **RECOMMENDED ACTION**

1. Adopt a resolution declaring the City's intention to continue County Service Area charges within the City for Fiscal Year 2024/2025 and notice a public hearing for June 19, 2024.

### **DISCUSSION**

When the City of Meniffee incorporated in October 2008, it assumed responsibility for the existing County Service Areas (CSAs) within the City's jurisdictional boundaries. Since then, the City has been responsible for the services and charges provided by CSAs 33, 43, 84, 86, 138, and 145 within its boundaries. Additionally, during the formal incorporation on October 1, 2008, the City adopted all Riverside County Ordinances in effect, including Riverside County Ordinance No. 573.

Riverside County Ordinance No. 573 specifically requires that the City Council annually cause to be prepared and filed with it a report describing the services, parcels and charges provided by each CSA for the upcoming fiscal year. Additionally, a public hearing must be conducted to complete the process of establishing the CSA charges for the upcoming fiscal year.

Each of the six CSAs identified above has annual assessment charges levied against the parcels contained within its service area boundaries. The charges are set each year based on the formula specified within Riverside County Ordinance No. 573. The annual charges are assessed and included on the property tax bill for each affected parcel and are collected and transferred to the CSA/City on the same schedule as the normal property tax payments.

The CSAs provide several different services to portions of the City, primarily street lighting. However, some CSAs provide additional services. For example, CSA 86 provides funding for dedicated law enforcement service to the Quail Valley area, and CSA 145 provides for parks and recreation services for most areas of the City west of Interstate 215. Attached as Exhibit A to the

resolution is a report of the various County Service Areas describing the services provided, the cost of the services, and the assessment ranges.

The cost of services provided by five of the six CSAs is either covered entirely by their respective special assessments, or by a combination of special assessment revenue and the CSA's fund balance. The exception is CSA 145, which maintains streetlights, landscaping and parks and provides recreation services to 7,746 properties in Sun City and western Menifee. When this CSA was formed, the assessment increases were limited to 2% annually which has resulted in maintenance costs rising faster than revenues.

In FY 2024/2025 CSA 145 has budgeted revenue of \$1,042,163 and budgeted expenditures of \$1,088,238. Historically, the City has budgeted tree trimming costs for CSA 145 within the General Fund. In FY 2024/2025, staff recommend shifting the CSA tree trimming costs to the special district to reflect the full cost of providing services to the district. As such, a General Fund contribution of \$46,075 would be required to balance the proposed budget because this CSA does not have an available fund balance to cover the total costs.

If the resolution is adopted, it would set a public hearing to complete this process, which would be held during the June 19, 2024, City Council meeting.

### **STRATEGIC PLAN OBJECTIVE**

Regular City Business

### **FISCAL IMPACT**

Adoption of this resolution would allow the City of Menifee to collect approximately \$1,924,382, which would allow the City to meet its maintenance obligation for the six CSAs. Additionally, there would be a \$46,075 impact to the General Fund, which is already accounted for in the adopted FY 2024/2025 budget, to support the existing maintenance costs associated with CSA 145. This CSA is being levied at the maximum eligible assessment rate, and all available fund balance for this district has been used.

### Method of Apportionment of Assessment

The maintenance of landscaping, street lights, roads, and parks and recreation as well as law enforcement (hereafter referred to as the "Services") provides direct and special benefit to those properties located within each CSA. The Services enhance the properties within the Districts by providing improved erosion and water control, dust abatement, increase public safety, improve neighborhood aesthetics and property protection, increase traffic safety, and an enhanced quality of life and sense of well-being for and to the properties.

The Services maintained by the District provide no general public benefit in that the properties within each CSA are discrete neighborhoods or communities for which the improvements were installed. The Services do not extend beyond the perimeter of the boundary of each of those discrete neighborhoods or communities. It is therefore determined that all properties within the Districts benefit equally from the financed improvements and the costs and expenses for the maintenance and services are apportioned on a per parcel/acre basis per Tract of development.

The Method of Apportionment of the Assessment is based upon the relative special benefit derived from the improvements and conferred upon the real property within each CSA over and above general benefit conferred upon the real property within each CSA or to the public at large. The Assessment for each parcel varies by each development Tract and District as it was set at the time of annexation. At the time of annexations each tract's assessment was calculated by dividing the total annual costs by the total number of subdivided parcels within the tract to determine the annual assessment per parcel or acre.

### Maximum Assessment Formula

The purpose of establishing a maximum assessment formula is to provide for reasonable increases and inflationary adjustment to annual assessments without requiring costly noticing and mailing procedures, which would add to the CSA costs and assessments.

At the time of annexation into one of the Districts, a maximum assessment formula shall be applied to all parcels of land assessed within the CSA. Within the District, the maximum assessment is subject to an annual inflator of two percent (2%) per year for the following tracts:

The maximum assessment is adjusted annually and is calculated independent of the District's annual budget and proposed annual assessment. The proposed annual assessment (rate per parcel/acre) applied in any Fiscal Year is not considered to be an increased assessment if less than or equal to the maximum assessment amount. In no case shall the annual assessment exceed the maximum assessment.

Although the maximum assessment will increase each year, the actual CSA assessments may remain virtually unchanged. The maximum assessment adjustment is designed to establish a reasonable limit on CSA assessments. The maximum assessment calculated each year does not require or facilitate an increase to the annual assessment and neither does it restrict assessments to the adjusted maximum amount. If the budget and assessments for the Fiscal Year require an increase and the increase is more than the adjusted maximum assessment, it is considered an increased assessment.

To impose an increased assessment, the City of Menifee must comply with the provisions of the Constitution of the State of California, Article XIII D, Section 4c, which requires a public hearing and certain protest procedures including mailed notice of the public hearing and property owner protest balloting. Property owners through the balloting process must approve the proposed assessment increase. If the proposed assessment is approved, then a new maximum assessment is established for the CSA. If the proposed assessment is not approved, the City may not levy an assessment greater than the adjusted maximum assessment previously established for the properties within the CSA.

## Fiscal Year 2024-25 Assessments

Each of the developed parcels in the CSAs has been deemed to receive proportional special benefit from the maintenance and operation of the improvements in their service areas.

The following table contains a summary of the estimated Fiscal Year 2024-25 assessments and other revenue sources compared to the estimated annual costs for each of the Districts.
